

## CODE Parent Engagement Resources

The school board recognizes the vital role that parents play in guiding their children in learning skills that are essential for success at school and throughout life, including mathematical understanding. One of our education partners, the Council of Ontario Directors of Education (CODE), has created a series of resources with input from parents across Ontario to support you and your child(ren) with important learning strategies in the home. The link can be found below and will be made available on the board website under “Parent Resources”. (Link to our Board Website: <http://www.bhncdsb.ca/parents/parent-involvement-committee>)

In order to leverage access to these resources in our schools, we would ask that you share this information at your next Catholic School Advisory Council meeting and would encourage you to include it in upcoming newsletters, on Twitter and on your school website. Please do not hesitate to contact me should you have further questions. Thank you for your continued commitment to Catholic Education.
